DEATH.

the 17th December, JOHN ROCKER FRYER, aged 25 years. The publication of this issue commences

The China Mail. HONGKONG, TUESDAY, DECEMBER 22, 1896. On the 25th November, 1895, in his annual address to the Legislative Council, His Excellency Sir William Robinson, with reference to the Medical Department and the Sanitary Board, said: There are those who have pretended to see in the action of the Government an attempt to deal a deathblow to the Sanitary Board. I disclaim any such motive; and even had such been Legislative Council. Mr Chamberlain has my object, I should let least have adopted deferred final decision until Sir William measures better-calculated to effect it-measures which would have left no doubt whatever as to my intentions. He was speaking then more particularly of the appointment, in the face of strong unofficial opposition, of the Medical Officer of Health as a member of the Sanitary Board; but he was also replying to 'certain insinuations which have been made as to the motives the only ahred of municipal self-governof the Government.' Sir William used ment that has been vouchsafed to a disthe word 'insinuations,' but we are glad to satisfied community. And with that goes be able to state that throughout the whole the Colony's only hope of relief from the Cauton Insurance Office, Ltd., payable. Board. We insinuated nothing, because future. From the Unofficial Members we had not the slightest dubisty as to the (with one exception) not much help need Government's real intention. We lay no be expected; will anyone else step into the claim to supernatural powers of prescience. breach and lead the forlorn hope? The drift of the Government policy was as clear as noonday to any person possessed of the commonest powers of observation. We exposed the secret conclave of the Unofficial Members when Mr Whitehead was absent from the Colony : we intimated than that the Unofficials, without consulting the public, had submitted memoranda to the Governor in favour of the abolition of the Sanitary Board. We again direct the attention of our readers to the Governor's declaration on 25th November, 1895, and compare it with his despatch of 18th May, 1895 (published in another column). There he wrote: 'I therefore submit for your Lordship's approval that the Sanitary Board that the Head of the Medical Department responsible, not only for the work

as at present constituted be abolished, and The M. M. Co.'s s. s. Sydney, with the of this Culvery who should be appled the Principal Civil Medical Officer, be made of that Department, but also for the sanitary work of the Colony other than that of an engineering mature, which should be placed under the Director of Public Works. He then proceeds to make detailed suggestions which are tantamount to the effecement of the Sanitary Board. He also makes a point of the frequent friction between the Sanitary Board and the Government and between the Sanitary Board and the public. We do not ignore His Excellency's statements during the plague epidemic condemnatory of divided responsibility in such an important matter as the sanitation of a peculiar Colony with the best English Machinery, embody- like Hongkong, and we are willing to give him credit—as we have always done—for a desire to improve the condition of affairs in the Colony; but we accuse him now, as we accused him in 1895, of a lack of atraightforwardness such as the governed expect from those in high places wherever the British flag flies as a symbol of all that is upright, straightforward, honest. When he, in November, 1895, disclaimed any The s.s. Chunsong, from Calcutte and such motive as dealing a death-blow to the Sanitary Board, he was perfectly aware that he had written to the Secretary of State for the Colonies recommending the abolition of the Sanitary Board. He cannot hedge behind the words as at present constituted, for he proceeds, in his despatch, to make proposals denuding the Sanitary Board of the restricted power it possesses, and transferring its duties to Government officers. Neither can he hedge behind the emasculated, hybrid Board which he subsequently proposed or the recommendations of the Retrenchment Commission, for neither can shield him from the accusation of lack of honesty in his treatment of the public. A few days after he disclaimed the death-blow to the Sanitary Board, he wrote Mr Chamberlain, The following is a List of Waters always: in terms which leave no doubt es to their meaning, that he recommended the Sanitary Board, consisting of three officials and two unofficials, merely as as sop to public opinion, and would prefer the abolition of the Board altogether.

So much for Sir William Robinson and his dealings with the community on this question. Whilst we express our stronger disapproval of his method, we must also express our disappointment with his recommendations. Over and byer again we have taken sides with His Carrier Machennie, Superintendent of Podirty or group, or that appear to have been Excellency against divided responsibility. | lice at Shanghai, has been appointed Louis used for any other purpose than that of Not once but many times, have mandant of the fibergies V.O. by 45 votes. containing Acreted Waters, sewach Bottles we advocated an excension of the Board's to 18. That be-lief was confirmed by what has manapired Mandelines, and Strings of all studies. We the the restaurance of the Uncharted Bosinson & Co.

Members of the Board. His Excellency does not think so, however, and has at last adopted the advice tendered him repeatedly through these columns, viz., to make up his mind on the question, and, instead of tinkering, either abolish the Board altogether and create a Sanitary Department for the administration of which the Gov-At the Shanghai General Hospital, on ernment would be wholly responsible or create a popular, representative Sanitary Board. He has no faith in unofficials where sanitary affairs are conterned, and in June of the current year recommended the management of the sanitary affairs of the Colony absolutely by a Government Department. We differ from His Excellency, and would rather see an Unofficial Sanitary Board, but it is satisfactory to have his views clearly net forth at last. Better that he should recommend the Government Department as opposed to the Sanitary Board than have the insincers disclaimer of 1895. The public now knows where it stands in this important question, thanks to the persistent enquiry of Mr Whitehead, the only independent Unofficial Member of the Robinson's successor has reported on the situation, but as he will arrive in the Colony with only a limited knowledge of the place and its requirements and will have to depend on his subordinate officials for advice,' we already know what the Secretary of State's decision will be, and we are within measurable distance of losing discussion of the Sanitary Board question military tax on municipal revenue. The since 1894 we have set forth in the clearest time appears to have come when an attempt possible terms that what the Government should be made to organise public opinion sought was the abolition of the Sanitary and to formulate a fixed policy for the

THE Police pinnace No. 4, which was sunk in the collision with the steam ferry launch Lin Fat, early in the morning of the 17th December, was successfully raised on Sunday, and an examination shows that she. has sustained comparatively slight injuries. Operations were started in the morning about eight o'clock, by Li Sing Kee, contractors for the Dock Co. A Chinese diver was sent down to fix a rope round the minnace, and when that had been secured efforts were made to bring her to the surface, when the rope broke. The diverwent down again with a crowbar and chiesl and cleared the way for a cable, which was secured round the pinnace. The pinnace was then raised to the surface, about 4.15, and baled out. She had sustained very little damage. There was a slight dent in the stern. P. C. Kerr's watch and chain, which he lost when he was thrown into the water, were also recovered, and also two revolvers, a carbine, and the clothes of the missing man. Everything, but the port side-light, apportaining to the pinnaco was recovered. The pinnace was towed to Hunghom Dock, where she will undergo repairs. The operations were witnessed by Inspector Hanson and the manager of the Lün Fat launch

In view of the peculiar circumstances of Hongkong and of the fact that the population is chiefly made up of Chinese, who will be more easily and more effectively dealt with by Government than by a popularly constituted Board, I am in favour o sunitary affairs being placed directly under Government control and managed entirely by a Government department responsible

to the Governor. 7.-The alternative-a Board composed entirely of unofficials-would not. I fear work well in this colony, which, as Lord Ripon has pointed out, has become a Chinose colony under the British flag: Out of a population of 200,000 the Chinese amount to about 243,000, and it is with sanitation among the Chinese that a Board, whatever Sanitary Board and Medical Staff of the its constitution may be, must be chiefly concerned. Further, it would be extremely difficult to draw the line between matters which should come under the Government understanding. At the same time. is easy to understand the desire to popular institutions in Great Britain, wish to extend similar institutions to this colony. But so long as Hongkong continues to retain its present character both as regards its constitution and

Peking, Dec. D The ex-Vicercy pays his visits to his new numen regularly and seems to like the work. He gave a dinner the other evening to the Foreign Minister at the house of H.E. Chang Yin-huan whose culinary arrangements easily permit of this being done. The latter is in the habit of inviting foreigners to a foreign repast. There is no truth 3.—I am not prepared to controvert the despatch I approve of the introduction of in the rumour that Li Hung-chang slapped opinion which has been thus given after this Ordinance and telegraphed to you Shong Taotai on the face, although the opinion which has been thus given after long attention to the subject and consultation with representative residents in the colony. Sanitation is to all-important in Hongkong that it seems only right that it should be under the direct control of the Gövernor Sir W. THE secret treaty is denied here both by the Chinese officials and the Foreign Ministers. Your correspondent wrote long ago that China had sold herself to Russia to an extent which would not be believed. Although all that you have published may not be in the treaty as signed, the greater part of it is. In relation to the signed treaty the greatest care has been taken to prevent its leaking out here before the ratification six months hence. In the Russian Legation while the treaty was being drafted and finally drawn up, the Chinese writers were not allowed to fill in the proper names in the treaty. This was done by the Chineso interpreter himself. This was a very wise procedure on the part of the Russians. If the Chipese themselves within a year can undertake the building of the Manchurian railways, good and well, if not Russia will come to the rescue. -N. C. Daily News Peking Cor.

MR Wilkinson from Canton replaces Mr Sundius, transferred to Hankow, as Vice-Consul at Tientsin. We are to have a third man here, and extra assistance in the native staff, unmistakable signs of the general prosperity of the port (writes the Tientsin correspondent of the N.-C. Daily News). Mr Bristow retires in March or April speculation is of course rife on the interesting subject of his successor; the names of Messrs Warren and Scott are most freely mentioned. By the bye, no British official here knows a word about the Mixed Court which the Tientsin correspondent of one of your contemporaries recently asserted was to be established among us. There is no doubt that if Tientsin continues to grow, some such arrangement will be necessary in the future; but the present necessity is not urgent, Mesers Policok, Scott, Griese, and Hausen of the Customs Bervice are transferred to the South.

THE text of the Franco-Chinese Convention regulating frontier traffic in Tongking has been issued to the public in Canton in the shape of a proclamation by the local authorities of that city. There are twentyeight clauses in all. The land traffic provides international thoroughfare at ten different points on the frontiers and at each point there are to be military stations of both countries. The duty of these stations is to vice the passports which travellers much procure from the nearest French Consul in China. Any entrance into Tongking territory or vice verse other than at the ten points mentioned in the Convention will in future, be treated as trespass by the local authorities of either country. As for traffic by junk, each junk will in future be required to carry a passport from the nearest French Consul or Imperial Maritime Customs as well as a huchaa (native passport) from the local mandarin of the port rom which the junk sails. Any deviation from the rules of the Convention will render the junk liable to confiscation .- N. C. Daily News.

It. seems to have been decided at last to 8.—After mature consideration of this commence the rebuilding of the railroad from Woosung to Shanghai. It is confidently that this will be the first attempt which from Chinking to Nanking was surveyed lest year by the Belgian engineers Mesers Mahiels and Delcheratine who were brought from the celebrated firm of Gookerill Plans for these roads are in the hands of Vicercy Life, but the money question forms the barrier in the way of commencing work. The road from Shanghai to Chinkiang out Soochow is said to be very cast of construction although it will require more than one hundred bridges, several of which would be of considerable length. Between Chinkiang and Nanking are a few ranges of hills, and it is understood that seven or eight tunnels have been found necessary. The preliminary work has all been done. and nothing now remains but to acquire the capital and begin the work.

THE CHINA REVIEW.

PUBLISHED BI-MONTHLY. THIS Review, which was intended to meet

L. the wants of many students of Chinese caused by the discontinuance of Notes and Queries on Ohina and Japan, has reached its Twenty second Volume. The Review discusies those topics which are upperment in the minds of students of the 'Far East' and about which every intelligent person con-nected with China or Japan is desirous of acquiring trustworthy information. It tocludes many interesting Notes and original Papers on the Arts, Sciences, Ethnology, Folklore, Geography, History, Literature, Mythology, Natural History, Antiquities, and Social Manners and Customs, etc., etc., of China, Japan, Mongolia, Tibet, and the Far East generally. Recently a new departure has been taken, and the Review now gives papers on Trade, Commerce, and Descriptive notes of Travel by well-known writers. It was thought that by extending the scope of the Renew in this direction, the Magazine would be made more generally

The Review department receives special attention, and endeavours are made to present a careful and conciso record Literature on China etc., and to give critiques embodying saletches of the Most stocks on such topics. TWENTY MILLION DOLLARS IN YAORTS.

The sport of yachting has become, in and around New York, very popular of late years; but it takes a long purse to indulge in it. A writer in The Ladies Home Journal gives some figures concerning it Belonging to New York and its im-mediate neighborhood, there are twentyfive yacht clubs, and the membership in these is larger than in the merely social this article. Attached to these chubs, or rather belonging to the members thereof, there are something like two thousand yachte of various classes, ranging from the useful and easily handled catboat to the magnificent twin-screw steamer with triple expansion engines. Now the property value of these yachts is about \$20,000,000, while the owners of them expend on them each year quite that much in keeping them iu commission. This goes to show that there is something besides a horse capable of eating his head off. A yacht is a pleasure-boat, and yaohts quite naturally cost according to size of vessel and crew, and the amount of entertainment supplied by the master, while the duration of the time of commission is a most important factor. There are members of the New York Yacht Cinb who spend each season \$25,000 on their yachts, and earn by their hospitality fame for generosity if not lavishness. There are others who keep their yachts in commission all the year round and spend PRICE

THIS paper is now issued every day.

The subscription is fixed at Five Dollars per annum delivered in Hong-kong, or Eleven Dollars Forty Cents including postage to Coast ports.

It is the first Chinese Newspaper ever issued under purely native direction. The chief support of the paper is of course derived from the native community, amongst whom also are to be found the guarantors and securities necessary to place it on a business and leval footing.

HONGKONG.

THIS ESTABLISHMENT, situated in the elegant Building known as CON-NAUGHT HOUSE, offers First-Class Appointment of the paper ever to each Floor, in charge of experienced Attendant.

Favourable Arrangements made for Estimated In the paper is of course derived from the native community, amongst whom also are to be found the guarantors and securities necessary to place it on a business and leval footing. place it on a business and legal footing.

The projectors, beaing their estimates upon the most reliable information from the various Ports in Chins and Japan,—from Australia, California, Singapore, Penang, Salgon, and other places frequented be the Chinese,—consider themselves justified in guaranteeing a large and ever increasing circulation. The advantages offered to advertisers are therefore unusually great, and the foreign community generally will find it to their interest to avail themselves of

it to their interest to avail themselves of tion—conducted by native efforts, but progressive and anti-obstructive in tone is almost limitless. It on the one hand commands Chinese belief and interest, while on the other it deserves every aid that can be given to it by foreigners. Like English journals it contains Editorials, with Local.
